

PUBLIC LEDGER

FIFTH YEAR.

MAYSVILLE, KY., WEDNESDAY, NOVEMBER 18, 1896.

ONE CENT.

If you have friends visiting you, or if you are going away on a visit, please drop us a note in this after.

Mr. P. G. Smoot is at home after a visit in Louisville.

Mr. Frank L. Grimes of Helena was in the city yesterday.

Mr. Charles Hughes was in this city Saturday on business.

Mrs. E. Hart of Fleming is visiting her parents in this city.

Mrs. George Hughes of Springfield was in this city Saturday.

Mrs. Dr. J. H. Holton left yesterday for her home at Richmond, Va.

Mrs. A. W. Robie and baby of Frankfort are visiting her mother, Mrs. Green.

Mrs. H. C. Smith, Jr., has returned from a visit to relatives in Newport and Cincinnati.

Mrs. W. A. F. Luray and Harry Crawford of Dover favored THE LEDGER with a call yesterday.

Miss Rose Zingerle arrived last evening to attend the Colline-Green reunion. She is the daughter of Mr. Joseph Bremer of West Pittsfield.

Mrs. Eddie Garrison of Cinton and Miss Doris Hughes of East Second street were pleasant guests of Mrs. George Hughes at her beautiful home, "Leland," last week.

If you have an item of news, please call up THE LEDGER, Telephone 33, and send it in.

Pure Pepper and Sage at Chengweth's Drugstore.

On account of the illness of Mr. George Daugherty, Mr. Charles H. Frank has been acting as night clerk at the Central Hotel.

The marriage of Mr. Charles J. Collins and Miss Ella B. Gunn will be solemnized this afternoon at 8 o'clock at the home of the bride on East Second street, Rev. Dr. John S. Hays officiating.

Mr. Thomas Wheately, a former resident of this county, died at Indianapolis November 18th, aged 91 years. He was the father of Mrs. John Shackson of Lexington, and for many years made that place his home.

The Second Lieutenant of the First Cavalry Guards says: "Frank Hinman is elected if he didn't get to vote. He leaves this county for St. Louis, Mo., the 19th. He will marry Miss May McLebers at Mayville and take his bride to St. Louis, where they will make their future home. May the best of luck attend this industrious couple."

Messrs. James and William Moana, brothers of Mr. Q. A. Moana of this city, are engaged in apple raising at Mayview, Mo. They are both Lewis county boys, but went to Missouri years ago. Of their crop for this year, there are 1,956 barrels in cold storage at Kansas City, and 2,500 bushels were sent to the dryhouse and cider-mill in their neighborhood. They sent a barrel to each of their brothers, and THE LEDGER is indebted to Mr. Means for a share of his.

LAUGHLIN.

The Murderer Calmly Awaiting the Inevitable.

Covington Commonwealth. During the absence of Jailer Wieghaus, who has gone to Indiana on a hunting expedition, Turnkey Fred Maurer has full charge of the battle.

This morning he had a lengthy conference with Robert Laughlin, the Mayville murderer of his wife and niece, who has been confined in the Covington Jail.

He said the man is somewhat dejected since learning that the death sentence passed upon him has been affirmed by the highest court, but that he exhibits no signs of insanity whatever as reported in the morning dailies.

He stated that he was ready to die whenever called upon, and further said that it was just as easy to go by the rope as to lie sick for a year and then shuffle off. He denied, when asked, that he had ever made a confession, and when the turnkey stated that many an innocent man had been hung or sent to the penitentiary, he said, "Well, when they hang me they will hang an innocent man."

He then engaged in a game of cards, and from all appearances in as good spirits as could be expected under the circumstances.

MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

WEATHER STORMS—SIGNALS:

BLIZZARD—HAIL—THUNDERSTORM.

ICE BLOCKS—MIST—COLD—WIND.

WE'RE FOR AMERICA & AMERICANS!

COLONEL THOMAS J. YOUNG, who was Chairman of the State Bureau of Republican Speakers during the recent campaign, is surely entitled to a good place under the incoming Administration. Colonel YOUNG is a most efficient man, and his campaign work was well done and productive of great good.

A COMPARISON of the recent vote in Kentucky is interesting, as showing which party received the abnormal increase.

1896-McKinley	218,055
1896-Bradley	172,436
Republican increase	45,619
1896-Bryan	211,779
1896-Hardin	183,594
Popocratic increase	54,255

The face of these figures the Popocrats have little reason to cry fraud.

A SPECIAL from Frankfort says the Silver Democrats in the Legislature will throw their support to Governor BRADLEY if they fall in their scheme to prevent the election of a Republican. This was determined at a caucus of Blackburn men in Louisville last Wednesday, in which Senators McCRaugh, Gross and others participated. They prefer BRADLEY to any other Republican, because his election would necessitate an election for Governor next year. Chief Justice PATON, and not BLACKBURN, they say, would be put up for Governor in this contingency, and BLACKBURN would wait for LINCOLN'S seat.

MEL BRYAN at Denver opened what he calls "the campaign of 1900." Concerning this opening The New York Evening Post says:

"The quickening of business conditions all over the country. Shut-down mills opened, factories running on full time again, wages restored, more men put at work—such is the general character of the news from North, South, East and West. It is a thing greatly to rejoice at, of course, for itself alone. We are in a position to stand a little prosperously now without being demoralized by it. But, aside from the relief and positive well-being which the business revival will bring to us, many, it is believed, a powerful and unanswerable argument brought forcibly home to the common mind. One week of the breath of life in National industry has been enough to destroy forever a mass of lies and sophistry which had been afflicting us for many years. The Free-silver agitators are left in full sight of the public shocked with their own prolixity. BRADY is speaking again before the end of the month, to open the campaign of 1900' but it is considerably announced that he will be asked to say only a few words inasmuch as he has been 'faligned by the campaign.' But it is not the campaign that fatigues him; it is the course of business since the election which is proving him an ardent hambug."

MIKY MEAN SPIRIT.

Madison County Farmers Form an Anti-Goldbug League.

A number of farmers of White Hall, Madison county, who voted for Bryan and Free Silver at the recent election, have organized an Anti-Goldbug League and have signed an agreement to employ no one who voted for the gold standard.

One well known farmer, who was instrumental in organizing the boycott, had six men working for him, two Goldbugs and four silver men, and he immediately discharged the two Goldbugs.

About twenty of the wealthiest and most substantial farmers in that locality have joined the "League."

This shows a mean spirit—unworthy even of an anarchist.

THE LEDGER'S PROPHESIES FULFILLED.

McKinley's Election Has Restored Confidence and Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of MCKINLEY meant the restoration of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country.

There were those who contended that the very opposite would be the case.

It is useless now to argue the question; it is settled by the results;—and that our readers may see who was right THE LEDGER will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

EAST DOUGLASS, MASS.

W. S. Hayward & Co.'s woolen mill, employing about 200 hands, which has been running on reduced time, started up today on full time.

LEXINGTON, KY.

Today Manager Burdick announced that the Lexington Paper Mills will be started up next Monday, giving employment to about forty men.

WOONSOCKET, R. I.

The Slater Cotton Mills, employing 700 hands, started on full time this morning. They have been running three or four days a week since last May.

HUNTINGTON, W. VA.

The Firefoot Coal and Mining Company and Camp Creek Coal Company, at Dingess, on the Norfolk and Western, resumed work this morning after a year of idleness. Several hundred miners are employed.

CONVERVILLE, IND.

The large furniture factories, carriage works, foundries, machine shops and other manufacturing enterprises here are preparing for the imminent resumption of business, after having been resumption of business for months. A large number of employees are affected.

PADUCAH, KY.

J. W. Little, proprietor of a big local spoke factory, left today for Wisconsin to secure orders. A big firm informed him before the election that if Mr. McKinley was elected they would give him all the orders he could fill. He left today in pursuance of a telegram. He will also at once double the capacity of his plant.

CHATTANOOGA, TENN.

The Manhattan Silver Plate Factory, which has been running irregularly since January last, has commenced running at nights on account of large orders conditioned on the election result. The New Haven Silver Plate Factory and A. H. Towar & Co.'s Silver Plate Factory both started up on full time. There is even a scarcity of employees at present.

LYONS, N. Y.

The Manhattan Silver Plate Factory, which has been running irregularly since January last, has commenced running at nights on account of large orders conditioned on the election result. The New Haven Silver Plate Factory and A. H. Towar & Co.'s Silver Plate Factory both started up on full time. There is even a scarcity of employees at present.

The Jacob Fisher Pottery, established in 1895, is now running full blast for the first time in many months.

Reports of large gold offerings continue to be received at the Treasury. Advices state that a Kansas City banker had made an offer of \$600,000 in exchange for currency. One of the Colorado bankers had offered \$200,000; a Baltimore bank \$100,000; a St. Louis bank \$100,000, and \$200,000 at San Francisco.

This shows a mean spirit—unworthy even of an anarchist.

PHOENIX, ARIZ.

The American Glucose Company notified its workmen to report for duty November 19th at which time a recent reduction of 10 per cent. in wages will be restored.

MANCHESTER, CONN.

The big silk mills of the Cheney Bros. began a full-time schedule today. The works have been running at a reduced time for more than three years. The change affects 2,500 employees.

JOHNSON, PA.

It was authoritatively announced today that the great Cambria Steel Mills, which have been closed down for some time, will resume work the latter part of the week, giving employment to a large force of men. The company hoped to put the blooming and billet mill in operation about the same time.

TOLEDO, O.

The Maumee Rolling Mill Company will increase its force by 300 men tomorrow. The sheet iron mills have been closed for several months, and would not have opened in the event of Bryan's election. The men are all high-priced, skilled workmen, and will go to work at the regular scale.

FLORENCE, ALA.

The Sheffield Coal, Iron and Steel Company yesterday received an order for 4,000 tons of pig iron, at an advance of 50 cents a ton over price before the election. Since Tuesday the two Sheffield furnaces have received a number of orders ranging from 100 to 1,000 tons and a decided iron revival appears to have set in.

BELLEVILLE, PA.

It was officially announced today that the Belleville Glass Works would again resume operations after an interval of six years. The work of repairs will commence tomorrow and the pools will be fired in about two weeks, giving employment to forty hands. A popular subscription by citizens during the past week is responsible for the renewed activity at the works.

PIQUA, O.

The best evidence of the restoration of confidence which the people have had here was the starting up of the Corrugating Works, the Rolling Mill, the Snyder Bent Wood Works, and the Orr Lissed Oil Mill, furnishing employment for over five hundred men. The works of the American Strawboard Company intend to commence operations as soon as repairs which are in progress are completed.

WILMINGTON, DEL.

There is a decided boom in industrial circles here.

The Harlan and Hollingsworth Company has enough work to keep the present force, numbering 1,300 men, employed for a year, and if orders continue to come in the number of employees will soon be increased to 3,000. The company has just signed a contract to build for the Merchants' and Miners' Transportation Line a steamship, which will be one of the best equipped vessels plying on the Atlantic coast.

The new boat will be a companion to the Howard, completed by the company a year ago. The company is rebuilding the yacht Josephine, owned by S. P. A. Widener, and is building a tugboat for the Philadelphia and Reading Railroad Company, a ferry-boat for the West Shore Railroad Company and a steamer for the Delaware River and Bay Pilots.

ASHLAND, KY.

The real estate market has opened lively in this section the past week, and several important transfers of land, presumably for tobacco raising purposes, are reported from Carter County. This promises to be a leading industry in the end of the state the coming season, despite the efforts of the Bluegrass region organizations to curtail the crop by general consent.

ELWOOD, IND.

The election is having a good effect in Elwood, Franklin and near town. Several factories will resume running full time at once. The McCloy Chimney Factory, which has been shut down, started up today, and the plate-glass factory, which has been idle since last August, will resume on the 20th inst., with 700 employees. The Macheth Factory and the Elwood Window glass house will increase their working forces. The forge works, tin plate shop, iron foundry and radiator factory are also feeling the impulse of better times, and are increasing their forces. The big window glass plant in East Elwood will start up about the middle of the month.

The Wetherell Rolling Mill at Franklin has received orders which will keep it running day and night. The three window glass factories are arranging terms with the employers, and will start about the 20th inst. Both brickyards here are arranging to start, and the Elwood Tile and Brick Factory and the Elwood Flasing Mill will operate full time. The box factory has increased its force and so has the Elwood Furniture Plant.

BRISTOL, CONN.

A business revival is felt here and the most notable instance of it is found at the works of the Bristol Brass and Clock Company. Beginning tonight the work of reducting of 10 per cent. in wages will be restored.

MONTGOMERY, ALA.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

NASHVILLE, TENN.

The Sheffield (Ala.) Coal and Iron Company, which has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

CHATTANOOGA, TENN.

A business revival is felt here and the most notable instance of it is found at the works of the Bristol Brass and Clock Company. Beginning tonight the work of reducting of 10 per cent. in wages will be restored.

MANCHESTER, CONN.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

JOHNSTOWN, PA.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

CHATTANOOGA, TENN.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

TOLEDO, O.

The Maumee Rolling Mill Company will increase its force by 300 men tomorrow. The sheet iron mills have been closed for several months, and would not have opened in the event of Bryan's election. The men are all high-priced, skilled workmen, and will go to work at the regular scale.

FRANKLIN, OHIO.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

ATLANTA, GA.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

MEMPHIS, TENN.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

NEW YORK CITY.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

PHILADELPHIA, PA.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.

DETROIT, MI.

The American Glucose Company has headquarters here, sold on Wednesday and Thursday, 8,000 tons of iron at advanced prices and during the next two days turned down orders for 10,000 tons that they were unable to fill. Prices have been advanced 50 cents a ton since last week. The heavy demand has led to another large furnace being ordered in blast and about 500 men will be given employment thereby. The company's third furnace will be put in blast as soon as it can be repaired.
